Women's Sports Medicine Program

Excelsior Orthopaedics & Sports Medicine is proud to offer Western New York female athletes a sports medicine program.

Dr. Lisa Daye, orthopaedic surgeon, has developed a sports medicine program and a network of providers which is focused on the needs of female athletes, recreational to elite.

Dr. Daye understands that **female athletes may have unique sports injuries and conditions that can be better understood and managed by a female provider.**

Dr. Daye has developed a comprehensive network of female providers to ensure the overall health and wellness of female athletes:

- Orthopaedic Surgery
- Sports Medicine
- Rheumatology
- Therapy/Rehab
- Nutrition
- Sports Physiology
- Physiatrist

The Women's Sports Medicine program provides female athletes with comprehensive care - for women by women. The program aims to address sports injuries, improve performance and prevent future injuries.
